## PROFILE

Dynamic and skilled **Java Developer** with 1+ years of experience in developing robust and scalable software solutions. Proficient in **Java, Spring Boot, Hibernate,** and **Microservices architecture** with expertise in the complete software development lifecycle (SDLC). A results-oriented professional with a proven track record of delivering high-quality code, collaborating effectively across teams, and driving successful project outcomes.

## EDUCATION

**Bachelor of Commerce**                                             07/2020 – 06/2023
*Barkatullah University*                                                Bhopal, India

## PROFESSIONAL EXPERIENCE

**Java Developer (Team Lead)**                                      10/2023 – present
*Dollop Infotech Pvt. Ltd*                                             Indore, India
- Develop and maintain scalable web applications using Java, Spring Framework, Spring Boot, and Angular.
- Design and implement RESTful APIs to facilitate communication between front-end and back-end systems.
- Conduct code reviews, optimize application performance, and ensure code quality through best practices and industry standards.
- Work with relational databases, including designing schemas, writing SQL queries, and optimizing database performance.

## PROJECTS

### AIG

- Developed a Spring Boot microservices architecture to support the address verification functionalities, ensuring modularity and scalability.
- Implemented robust server-side logic to handle user address submissions and verification requests, ensuring data accuracy and integrity
- AIG employs robust security measures to safeguard user data, ensuring compliance with industry standards and maintaining user privacy throughout the verification process.

### CICO

- Developed a comprehensive student management system, CICO, to streamline various administrative tasks within educational institutions
- Implemented robust security measures, including data encryption, user authentication, and access control, to safeguard student information and ensure compliance with data protection regulations
- Designed and implemented RESTful APIs to enable smooth communication between the front-end and back-end services

## SKILLS

- Java
- Spring Framework
- Angular
- Spring Boot
- Microservice
- JWT
- Apache Kafka
- SQL
- Docker
- Kubernetes
